### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's representative, Mr. Keith Townsend, on 03/01/05.

The application has been amended as follows:

Page 1, line 12, "Application" has been changed to --Application 09/925,346, abandoned on December 30, 2003,--;

Page 5, line 27, "211, 212" has been changed to --213, 214--.

The following is an examiner's statement of reasons for allowance: The claims define an apparatus comprising a table saw with height and tilt adjustability wherein the saw blade, drive transmission unit, motor, and shaving collecting member are mounted on a support seat, and when the height or tilt of the blade is adjusted, all of the components are adjusted simultaneously. Wang (6,546,835) teaches a table saw with height and tilt adjustability wherein the saw blade, motor and drive transmission unit are mounted on a support seat, and are adjusted simultaneously, but does not teach a shaving collecting member. Stuy (4,063,478) teaches a table saw with a saw blade, drive transmission unit, motor and a shaving collecting member that

is adjustable in a vertical direction, but does not teach all of the components being mounted to a support seat, and does not teach adjusting all of the components simultaneously. Connor (4,255,995) teaches a table saw with height and tilt adjustability wherein the saw blade and shaving collecting member are mounted on a support seat, and when the tilt of the blade is adjusted, the components are adjusted simultaneously, but does not teach the shaving collecting member adjustable in a vertical direction. It would not have been obvious to use the references in combination with other prior art teachings to meet the claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
